Focus of 2020 activities

- Continue the items above
- Increased effort on Surround Fence Repair
- Respond to ideas from Members

Henderson Park update

In the recent TRAC (Terwillegar Riverbend Advisory Council) meeting, Tim Cartmell reiterated the need for the establishment of a Henderson Park grass roots committee to serve as a focus group as to what we want developed on the site. Development may or may not happen on the park, however the recent controversial development proposal in Keheewin shows that the city has still a long way to go with respect to community consultation. As a community we need to be prepared and informed when it comes to future development of the park. Should you have any interest in such a focus group, please contact the league at info@theridgeonline.ca

Community League update

New Year's Fireworks celebration the League has resumed its work on getting a community league building constructed. Bids went out and the design team is currently reviewing them. Should the costing be favourable, we can expect construction to start this spring for a fall opening. Funding is still an issue and the league will continue to look to fundraising to help in its endeavor towards constructing a wonderful building to serve our community needs.
